Quiz 1

1. The student will receive a 0 since they are not ill, they did not request an extension prior to the deadline, and they have no initial submissions which can be graded. Furthermore, the student did not face any technical issues that would allow for a deadline extension (Section 10.2).
2. No this is not an academic honesty violation because the student cited their source, indicating those words were taken from somewhere else and crediting that source (Section 10.4).
3. Assuming the assignment does not state any exceptions, the student will receive a 0 because all assignments *must* be able to compile on CSUG machines (Section 9.2).
4. A regrade request must be submitted one week after the assignment's grade has been posted to Blackboard. It should clearly explain why the given grade is incorrect and is to be uploaded as a submission to the assignment a regrade is being requested for. Its format must be typeset PDF.
